IAD AIA – Italian Arbitration Day 2026

Is artificial intelligence making us lose our bearings?

Event overview

This free event, organized by Ciarb's European Branch and its Italian Chapter, explores the impact of artificial intelligence on professional judgment, decision-making, and the arbitration field. The discussion will bring together arbitration practitioners and experts to examine whether increasing reliance on AI is changing how professionals navigate complex legal and ethical issues.

Please join us for a cocktail reception following the event.

Date and venue
